Short Description

A beautiful hand finished, teak and rope basket. Available in two finishes.

Not sure where to put your shoes when taking off to board? This is the perfect accessory. Our handmade teak and rope shoe basket is a classic nautical design featuring two of the most iconic marine materials. A line of shoes dockside or perhaps in the cockpit is never ideal, but with this shoe basket they can be neatly stowed and carried onboard. Made in Italy by experienced craftsmen and women, the basket will look at

home on any yacht or superyacht.
