Product Images

Short Description

Tinted perspex deck hatch.

- CE marked, RINA approved, conforms to ISO 12216.
- Supplied with 10mm PMMA Perspex, with a tinted finish.

To comply with ISO9094:2015 regulations, please consult the directive and check the hatch sizes carefully. 900B00A and 900C00A both comply with ISO9094:2015 at time of publication.

Description

Manufactured from aluminium alloy, the hatches are then processed, polished and anodised. The neoprene seals and locking handles ensure a secure watertight seal in all conditions. The 10 mm thick PMMA Perspex is supplied in a standard smoked grey colour. The hatch has a very low deck profile of only 15 mm. Strong hatch adjusters allow the hatch to be positioned at any angle from closed through to 180 degrees. This range of high quality hatches has been fitted to some of the world's most prestigious yachts.
