Description

- Retractable pull-out hand-shower in chrome-plated brass;
- Innovative and neat design which does not invade the elegant lines of the deck.
- Ceramic flow regulator system that ensures smooth and long-lasting performances.
- Designed for quick and easy installation on flat or slightly curved surfaces, both horizontal or vertical.
- Entirely made of chromed brass;
- The housing base is equipped with an innovative system with lip gaskets to ensure a complete waterproofing, even during normal use;
- Available in two versions, with and without integrated flow control;
- Progressive mixer and AISI 316L stainless steel plate available as accessory.

Technical Features

Min. Height
300 mm

- Part Number: 4197A.C
- Installation spot: Flat or slightly curved surfaces, both horizontal or vertical.
- Innovation: Waterproof housing base during use and storage of the hand-shower; Integrated flow regulation.
- Materials: Hand-shower entirely made of chromed-brass. Ceramic flow-regulation system. Viton gaskets.
