- Available in black PU or black leather
- Aluminium spokes
- Universal Fit

- 350mm diameter

Description

The Tino steering wheel is a contemporary design that fits well in any helm. This model is available in black leather or black polyurethane and is designed to withstand the harsh environment. It is our recommendation that leather wheels are fitted internally only.

The Gussi range of wheels come as standard with a 3/4" tapered key way fitting which is a very common wheel specification and should fit the majority of steering shafts. On request we are able to supply with a splined shaft (longer lead times may apply). We are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes.

Black Leather with Hand Stitched Detail

Anodised Aluminium Spokes

Black Polyurethane
