

Steering Wheel - Stainless Steel - Corvina T

£531.92

Excl. Tax: £443.27

Product Images

Short Description

The 'Corvina T' steering wheel is a modern version of the classic 'Corvina' wheel. It is cast from 316-grade stainless steels and the spokes are in a 'T' formation. This wheel is not only gorgeous to look at but is designed to withstand the harsh marine environment. As standard, this model is available in black leather with a black centre.

- 316-grade stainless steel and leather steering wheel
- 'T' formation spokes
- Other finishes and grip styles available on request
- Universal finish
- Ø350 diameter

Please note that this wheel has a blank centre cap as standard (without Gussi logo).

Description

The 'Corvina T' steering wheel is a modern version of the classic 'Corvina' wheel. It is cast from 316-grade stainless steels and the spokes are in a 'T' formation. This wheel is not only gorgeous to look at but is designed to withstand the harsh marine environment. As standard, this model is available in black leather with a black centre. It is our recommendation that leather wheels are fitted internally only.

The Gussi range of wheels come as standard with a 3/4" tapered key way fitting which is a very common wheel specification and should fit the majority of steering shafts. On request we are able to supply with a splined shaft (longer lead times may apply). We are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes.

316-grade Stainless Steel Spokes

Leather Upholstery with Hand Stitching
