Product Images

Short Description

The 'Badia' wheel is a contemporary wheel with a 'T' spoke design that fits well in any helm. 'Badia' is made from anodised aluminium and is designed to withstand the harsh marine environment. This wheel is available in two finishes, black coloured anodisation or grey coloured anodisation, both with a black PU grip.

- Anodised aluminium steering wheel with polyurethane grip
- Centre cap to match the finish of the spokes
- Detailing on grip for a high end look and feel

- Ø350 diameter

Description

The 'Badia' wheel is a contemporary wheel with a 'T' spoke design that fits well in any helm. 'Badia' is made from anodised aluminium and is designed to withstand the harsh marine environment. This wheel is available in two finishes, black coloured anodisation or grey coloured anodisation, both with a black PU grip.

The Gussi range of wheels come as standard with a 3/4" tapered key way fitting which is a very common wheel specification and should fit the majority of steering shafts. On request we are able to supply with a splined shaft (longer lead times may apply). We are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes.
