Product Images

Short Description

The 'Collina L' wheel is a contemporary wheel that fits well in any helm. 'Collina L' is made from moulded polypropylene and is designed to withstand the harsh marine environment. This wheel is available in two finishes, with graphite painted inserts or chromed inserts, both with a black polypropylene grip.

- Moulded polypropylene grip
- Graphite or chrome inserts
- Universal fit
- Ø350 diameter

Description

The 'Collina L' wheel is a contemporary wheel that fits well in any helm. 'Collina L' is made from moulded polypropylene and is designed to withstand the harsh marine environment. This wheel is available in two finishes, with graphite painted inserts or chromed inserts, both with a black polypropylene grip.

The Gussi range of wheels come as standard with a 3/4" tapered key way fitting which is a very common wheel specification and should fit the majority of steering shafts. On request we are able to supply with a splined shaft (longer lead times may apply). We are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes.
