The 'Selva' steering wheel is a contemporary and elegant tri-spoke design that fits well in any helm. This wheel is made from anodised aluminium with a black polyurethane grip which features added detail on the inner rim for a high end look and feel.

- Anodised aluminium steering wheel with polyurethane grip
- Universal fit
- Ø350 diameter

Description

The 'Selva' steering wheel is a contemporary and elegant tri-spoke design that fits well in any helm. This wheel is made from anodised aluminium with a black polyurethane grip which features added detail on the inner rim for a high end look and feel.

The Gussi range of wheels come as standard with a 3/4" tapered key way fitting which is a very common wheel specification and should fit the majority of steering shafts. On request we are able to supply with a splined shaft (longer lead times may apply). We are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes.
