Short Description

A grab handle made from mirror polished Ø22mm stainless steel tube.

This stainless steel grab handle is made from 316-grade stainless steel and features Ø45mm bases. Grab handles provide essential security onboard and are especially recommended on fast craft. The '2223' series handle is secured with a hidden stud (via M8 bolt, not included) and is available in 2 lengths.

Please note screws or bolts are not supplied with our handrails but can be purchased separately from the related products section below. The handle requires 2x M8 screws.
