## Product Images

## Short Description

### Stainless steel pedestal with adjustable, rotating and sliding options

Crafted from premium 316-grade stainless steel, these manual seat pedestals offer robust performance and versatile adjustment options. Designed for marine and interior applications, each model features a rotating function with optional sliding travel, ensuring comfort and flexibility on board.

- **T21013BNS:** Rotating pedestal, no sliders. Height: 283-367mm
- **T21013B:** Rotating + 200mm sliding (100mm fwd/aft). Height: 315-399mm
- **T21013BX:** Rotating + 200mm sliding with extension. Height: 375-535mm (min), 459-619mm (max).
- Thumb wheel locking mechanism for secure positioning
- Secondary lever for manual height and rotation adjustment
- Third Lever (T21013B & BX) enables forward/aft slider travel
- Manufactured by Atep in Italy using marine-grade stainless steel

See 'Product Attachments' below for 2D drawings of each pedestal. Approx. 8 week lead time from order.
