

P465 Ikona

Product Images

Short Description

The P465 Ikona Pilot Seat is built for both comfort and functionality in mind. Featuring a fixed backrest and a flip-up bolster, it offers the flexibility for a stand-up steering position when needed. The P465 Ikona Pilot Seat can be purchased on its own, or with a pedestal (manual and electric versions available).

This pilot seat can be customised to a large extent, with a choice of upholstery materials including customer own supply. Other customisable features include embroidery details such as stitching pattern and inclusion of an embroidered logo as well as custom armrest solutions. In addition, the seat can be personalised with a range of pedestal and footrest combinations.

We encourage any prospective client to contact us to discuss their requirements so that we may be able to

guide them through the purchase of this product and help select the options required.
