- Black polyurethane grip
- 3/4" tapered keyway fit
- 350mm diameter

## Description

---

The 'Soave' Gussi steering wheel is a beautiful addition to any helm. Cast from 316 grade stainless steel, the wheel is not only gorgeous to look at but is designed to withstand the harsh marine environment. This model is available in black polyurethane with a matching centre.

The Gussi range of wheels come as standard with a 3/4" tapered key way fitting which is a very common wheel specification and should fit the majority of steering shafts. On request we are able to supply with a splined shaft (longer lead times may apply). We are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes.

## Matching Black Polyurethane Centre

# Stainless Steel Double Spoke Design

## Black Polyurethane Grip
