## Product Images

## Short Description

# Fixed-height stainless steel pedestal with rotating function

This fixed-height pedestal stands at 710mm and is made from high-quality 316-grade, mirror-polished stainless steel, ensuring durability and a sleek finish.

It features a lever mechanism that allows the table top to rotate when loosened, and can be tightened to secure the table in your desired position. This pedestal was originally designed as a custom piece for a boat builder but is now priced to clear due to the cancellation of the order.

Key Features:

- Fixed height pedestal, 710mm
- Made from 316-grade, mirror-polished stainless steel
- Lever mechanism to rotate and lock the table top in position
- Priced to clear as a cancelled custom order
