Short Description

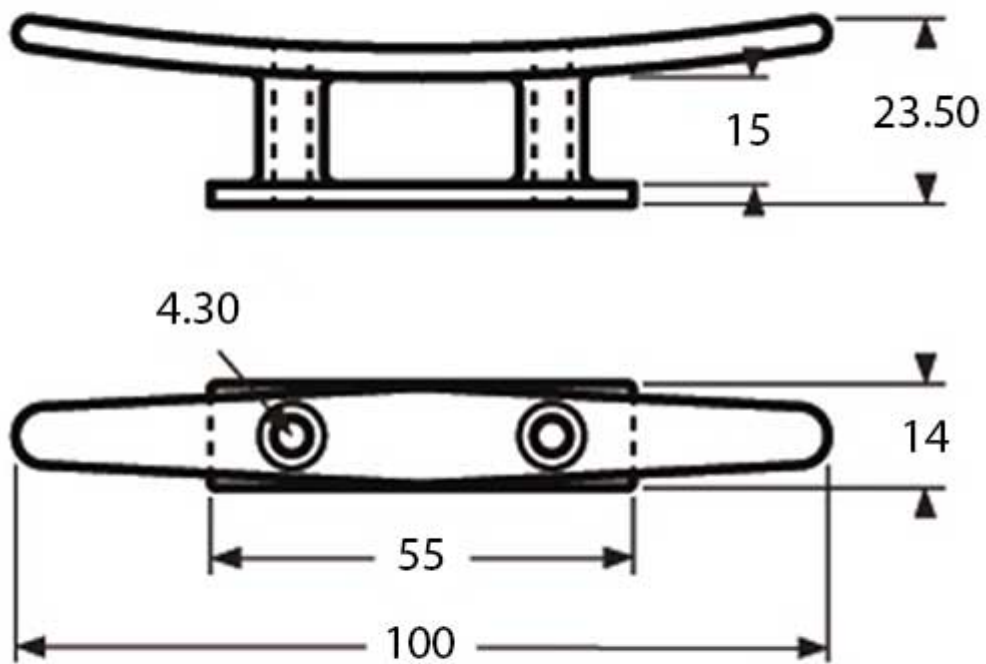

A 316-grade stainless steel cleat, available in two lengths.

This marine-grade stainless steel cleat is a cost effective solution for rope management on deck. Offered in two sizes, the cleat's form follows function and is supplied in a polished finish. Both cleat sizes are secured to the installation surface with 2x 3.5mm (No.6) countersunk screws from above. Although screws are not included with the cleat, they can be purchased separately; please see the related products below.
