Short Description

Silicone end cap for use with our [Ultra-Mini Neon Flex Top View 6mm x 6mm strip LED](#). This simple end cap is designed to be applied to the non-cable end when cutting and preparing lengths of strip LED.

This end cap should be used in conjunction with a clear silicone adhesive. Simply cover the cut end of the LED strip with silicone adhesive and slip over the end cap. Wipe away any excess adhesive and allow to set for the time suggested by the adhesive manufacturer. Adhesive not supplied.
