

R-KIT Ø24mm PEEK Gears For Marco Pumps

£51.10

Excl. Tax: £42.58

Product Images

Short Description

A repair kit consisting of PEEK gears, O-ring, front plate and fixings.

This R-KIT from Marco is a direct replacement for the pump gears in a UP3/E or DP3/E pump. The kit provides a complete renovation of the pump's key components and includes the gears themselves, a Viton 2162 O-ring, the nickel-plated brass front plate and the fixing screws. The gears are 24mm in diameter and made from PEEK material (Polyether ether ketone).

PEEK is suited to fresh water, salt water and most chemical applications.
