Short Description

A replacement flexible rubber impeller kit for bilge pumps

This Marco R-KIT consists of a impeller made from special nitril rubber NBR (sold separately), an NBR O-ring, a new front place and the correct fixing screws. This kit is compatible with the UP1 and UP1-M bilge pumps as well as the UP1-B ballast pump from Marco.

If just the impeller is required, then this can be purchased separately; please visit the related products section below.
