Short Description

A pair of brass hose fittings with 1/2" BSP thread with O-ring.

This R-KIT from Marco consists of 2x nickel plated brass hose fittings with a male 1/2" BSP thread. The hosetail fittings are for Ø16mm hose (internal diameter). They feature a NBR O-ring to prevent any fluid leaks once tightened.

These fittings are compatible with any Marco or other brand pumps featuring a 1/2" BSP port.
