

Drop-in Carbon Fibre Bathing Ladder

Product Images

Short Description

A fully customisable drop-in ladder manufactured to client's required dimensions.

The Versari & Delmonte removable carbon fibre ladder is a practical and beautiful swim ladder solution. Designed for those seeking a lightweight product that folds neatly into a padded strage bag, the ladder offers a comfortable user experience. All too often yacht swim ladders are too small and difficult to use, this drop-in solution provides the answer. Long integrated handles make climbing in and out of the water a pleasure and

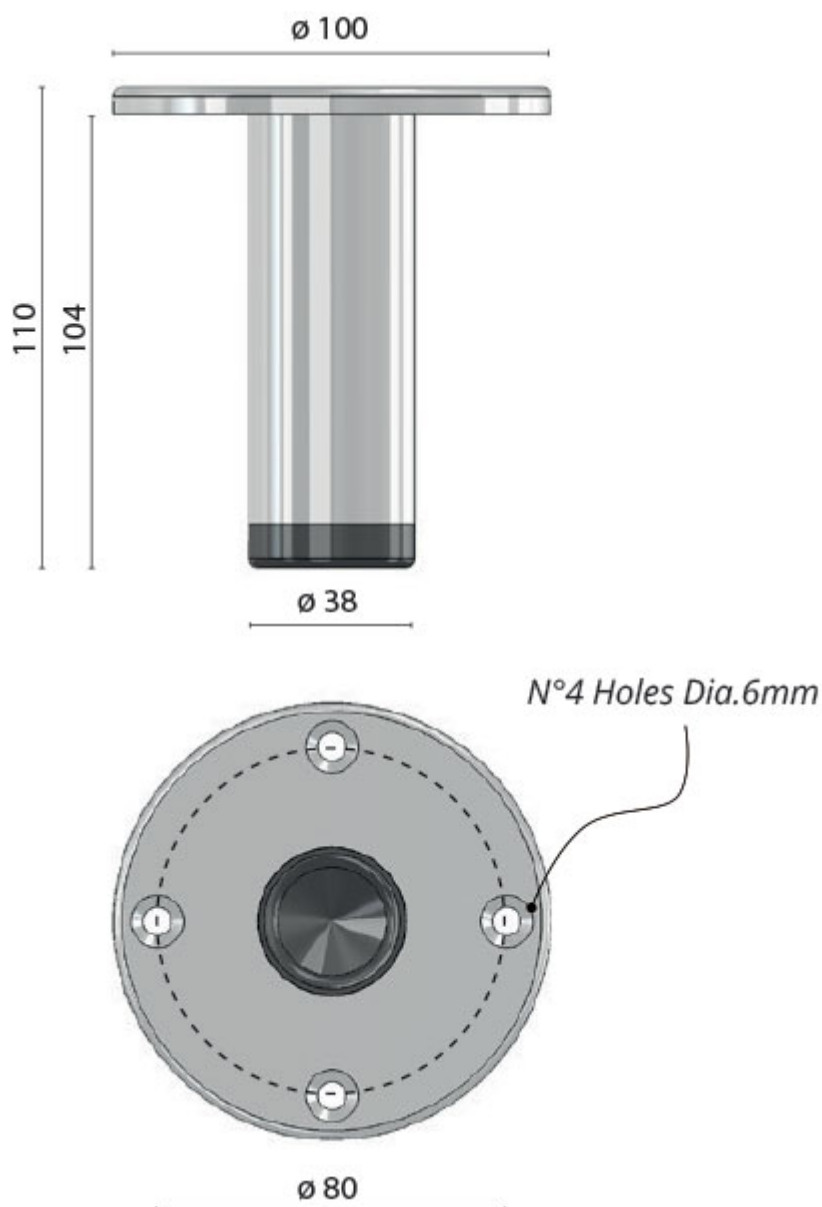

provide much needed security for all users.

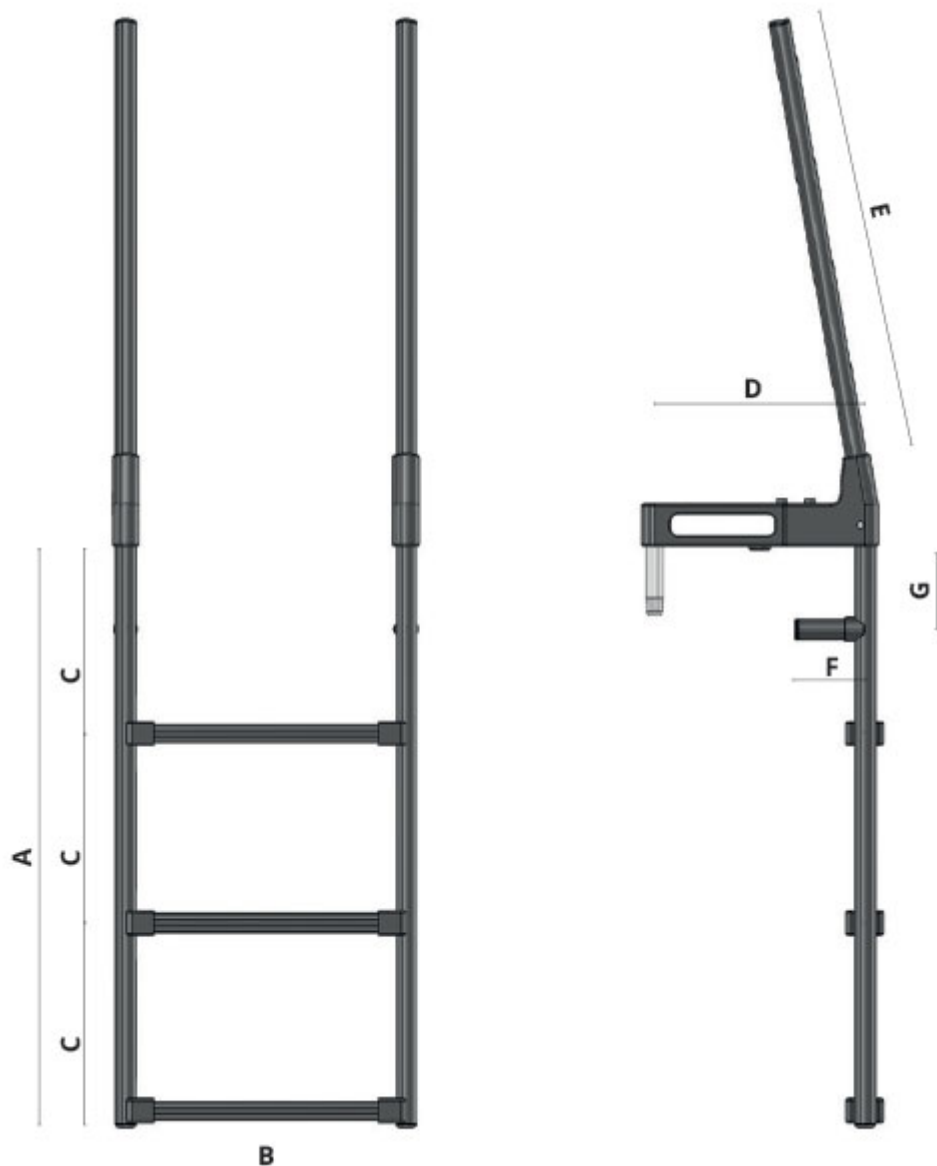

The ladder is supplied with 316-grade stainless steel deck sockets and features anodised aluminium brackets and hinges and a gloss lacquered carbon fibre structure.
