

SP496G Ladder Gangway

Product Images

Short Description

Automatic and Rotating Bathing Ladder

Thanks to its numerous features, including automatic opening and 90° rotation, the multifunctional SP 496 G gangway ladder ensures easy and comfortable access to your boat, enhancing your experience for a more pleasant and relaxing journey. The structure is made from powder-coated stainless steel and is designed to integrate seamlessly into the housing at the aft section of the yacht. It features self-levelling teak steps with courtesy lights and is supplied with a row of manual removable stanchions equipped with a rigid handrail and lifeline.

The ladder's dimensions and finishes can be customised to suit individual needs. The SP 496 G also includes a built-in lighting system and an optional Wi-Fi ring bell. Safety is prioritised with an integrated hydraulic pinlock. The automatic ladder combines gangway functionality with a 45° inclination both upward and downward. It is housed in a weather-resistant aluminium box that collects cleaning and washing water but is not watertight.

The system operates through an electro-hydraulic control unit for seamless use.

Description

Besenzoni: Luxury Ladders for Yachts and Superyachts

Besenzoni are renowned for producing high-end products, including their range of ladders designed for yachts and superyachts. Their ladders are crafted from premium materials such as stainless steel, carbon fibre, and teak, ensuring exceptional durability and reliability. The range includes bathing and boarding

ladders in various configurations, from manual drop-in models and electric options to fully automated hydraulic letterbox designs.

Hybrid Function

Ladders with a hybrid function, serving as both bathing ladders and gangways, effectively combine the features of a gangway and a ramp. The ladder can be swiftly transformed into a gangway by adjusting the step inclination, extension, and height. This model has been designed to ensure a safe walkway on steep inclines and to facilitate access to the quay. Customisation options for this type of product are extensive and essential. The technical specifications, including size, tilt, rotation, and finish, can be modified to meet the specific requirements of the shipyard, owner, or designer, allowing for a blend of various technical and aesthetic preferences.
