

RCS FOR UP3 12/24V ELECTRONIC REGULATOR WITH FLOW INVERTER

£123.85

Excl. Tax: £103.21

Product Images

Short Description

Reversible electronic system for oil fill and drain operations. The electronic control adjusts the speed of the motor according to oil viscosity/temperature and increases its speed during priming for faster operations. The system automatically shuts off in case of empty tank, short circuit and after 30 minutes of operation. This particular model of the RCS control panel is for use with UP3 pumps.

Additional Information

Input Voltage	12 / 24Vdc
Liquid Type	Fresh water
Power Consumption	3 Amps
Weight (kg)	0.200000
Manufacturer	Marco
