Short Description

P470 Manta helm seat - adjustable comfort and ergonomic design

The P470 Manta Automatic Helm Seat is expertly designed to provide unparalleled comfort and support for boaters who demand both style and functionality. Inspired by the graceful form of the Manta Ray, this helm seat seamlessly combines cutting-edge ergonomic features with premium craftsmanship, offering a luxurious seating experience.

Equipped with advanced electric adjustments, the Manta allows you to effortlessly customise the headrest, backrest recline, and footrest elevation to suit your ideal position. The intuitive touch controls are conveniently located on the wide, padded armrests, giving you precise control over height, backrest tilt, and seat glide. Additionally, the headrest can be manually adjusted for added flexibility.

Description

Luxury Details & Optional Features

Upholstered in high-quality leather with tone-on-tone stitching, the P470 Manta exudes both durability and refined elegance, perfectly complementing any boat's interior. The backrest features a black-painted cover for a striking contrast, while the wide, padded armrests provide superior support and comfort for extended hours at the helm.

Optional Features:

- Wireless mobile phone charging and USB ports integrated into the armrests for convenience.
- Embroidered logo (customisable position and size).
- Contrast stitching for a bespoke touch.

The P470 Manta Automatic Helm Seat is designed for those who value both style and comfort on the water. Contact us for more information or a personalised quotation tailored to your needs.
