Short Description

Innovative Removable Tender Cradles - Secure Support,

Maximum Convenience

Our patented removable I-carbon cradles provide exceptional stability for your tender or jet ski on any deck surface during navigation. Engineered with our proprietary "quick lock" fastening system, these cradles offer both security and convenience in one elegant solution.

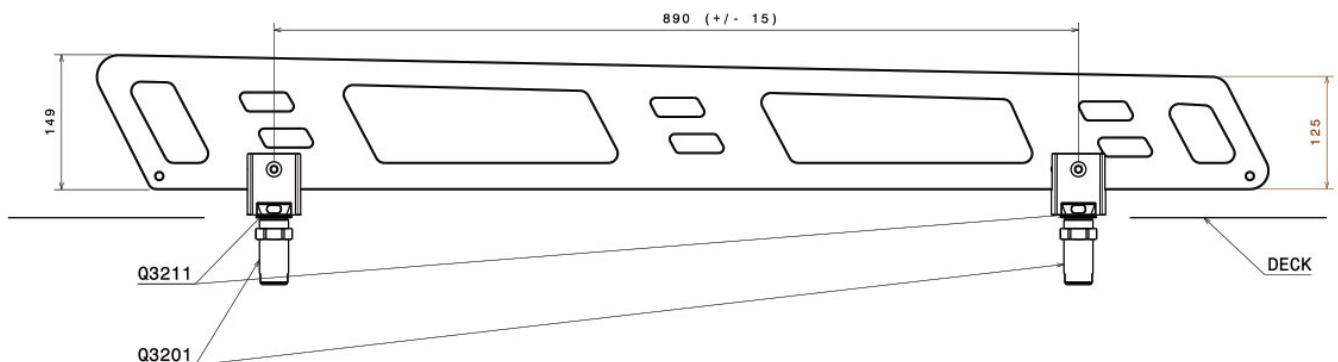

Key Features:

- **Patented Design:** Revolutionary I-carbon construction ensures superior strength and durability
- **Quick-Release System:** Easily remove cradles when launching your tender, leaving only flush deck bases
- **Space-Saving Storage:** Specially designed profile allows for compact storage in the included storage case
- **Premium Materials:** CNC-machined marine-grade aluminum with silver anodizing and AISI 316 stainless steel fasteners
- **Impressive Capacity:** Supports tenders and jet skis up to 4.90 meters. Each of the 4 deck sockets is rated to 1300kg safe working load

Transform your deck experience with our innovative cradle system that enhances both safety and usability while maintaining a clean, obstruction-free environment.
