Short Description

Keyhole escutcheon available in a brass or chrome finish

A brass escutcheon for a keyhole, available in either a brass or chrome-plated finish. This escutcheon serves to protect your door from damage caused by the key while enhancing the overall appearance of your door set.

It has an overall diameter of 45mm and is sold individually. The escutcheon is supplied without fixings; however, please refer to our 316-grade stainless steel [fixings](#) section if you require them. We are also happy to provide assistance if you need any advice.
