Short Description

Euro style cylinder lock with a 33mm x 17mm barrel size. This cylinder lock is constructed from brass and finished with chrome plating. The cylinder barrel is available in three lengths to suit a range of door thicknesses. This cylinder lock is compatible with our range of door locks requiring a cylinder barrel and features a thumbturn snib on one side of the barrel, ideal for doors that need to be locked with a key from the outside and opened with a snib from the inside.

- 33mm x 17mm Euro style cylinder barrel
- Snib thumbturn lock release on one side in brass or chrome finish

- Marine-grade construction
- Available in three lengths
- Compatible with our door locks requiring a cylinder barrel
- Supplied with two keys
