Short Description

***Nautilus* Chrome plated brass soap dispenser.**

This wall-mounted soap dispenser can be refilled with any liquid soap and features a sprung pump mechanism. Available in four different colours, the product features a unique resin container made from

VetroFreddo®. VetroFreddo® is an innovative material composed of glass pigments and resin. Some colours such as cognac have a striking translucence, offering an unusual depth to the finish and softness to the touch. Being part of the *Nautilus* family of products, the holder has a striking softened square form and matches the other *Nautilus* products.

The wall-mounted dispenser is secured to the installation surface via a hidden brass bracket. This bracket is screwed in place with 2x 2.9mm (No.4) countersunk screws (sold separately) and the holder simply fits over the top of the bracket and is secured with a grub screw (included).

Description

VetroFreddo® - Cold Glass

VetroFreddo® is an innovative material composed of glass pigments and resin. Its key characteristics are its versatility in adapting itself to any form or shape imaginable. The material's unique characteristics are expressed through the soul of its colour, which can be in clear, semitransparent or opaque form, due to the material composition of glass pigments. No limits exist in regards to colour. Apart from the existing range of colours, any colour from the "RAL" colour scheme can be chosen on request.

VetroFreddo® is temperature resistant up to approximately 100°C and can be worked with and carved just as marble or glass. All objects designed with the material VetroFreddo® can be cleaned with any type of non-granular soap, using soft sponges or tissues. In case of superficial damage (scratches), the damaged area should gently be rubbed with a sheet soaked in olive oil. In case of deeper scratches or damage, a special replacement glass paper is available from the manufacturer for every colour and type of object.
