Short Description

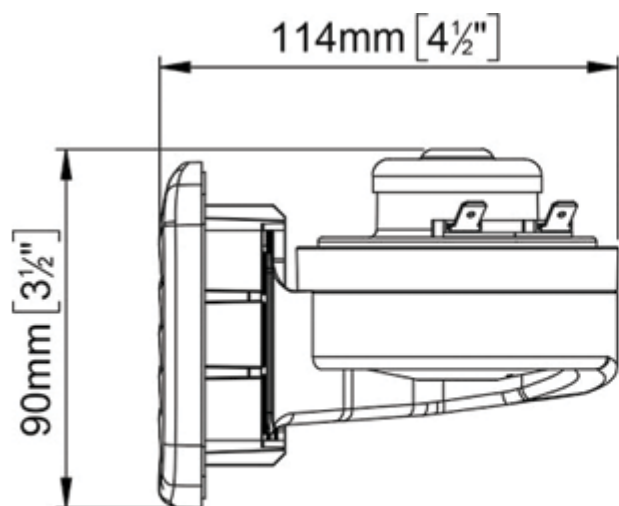

A recessed electromagnetic horn for small RIB and sailing boats, the *Smile* electric horn is the perfect integrated horn solution for small craft.

The *Smile* horn uses a simple front screw fixing method with the aesthetic cover hiding the screw heads. The body of the horn is available in UV resistant white or black ASA depending on the grille finish chosen. The

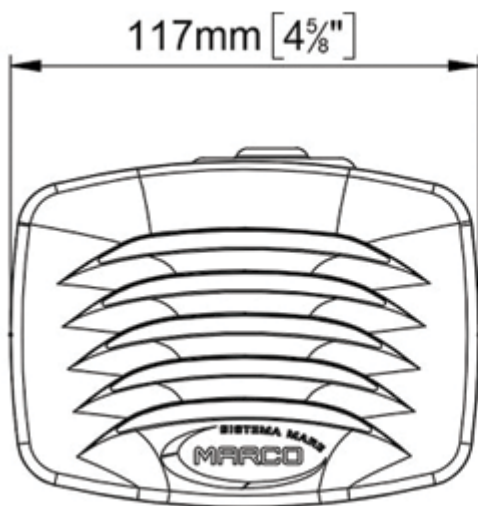

grille is available in white, black or a chrome plated finish. It is secured in place with a simple snap-on system.

The *Smile* is a powerful horn for its size and features a breathable protective membrane. It is available in a 12Vdc version only.
