Short Description

The Lyra courtsey light is an extremely discrete luminaire and offers a soft but decorative output. The product features two lenses on opposite sides of the bezel to either throw light out in a vertical or horizontal direction depending on installation orientation, washing the wall with a soft pattern. The product only protrudes by 4mm and is therefore suitable in a multitude of locations where a flush fitting is desirable including steps.

- Solid brass courtesy lights with a chrome plated finish (anodised aluminium heat sink)
- Power LED
- For interior and exterior use
- Dimmable
