Short Description

A pressure die cast brass ventilator cover, available in two sizes.

This vent cover is a beautiful solution for engine air scoops or similar breather holes on deck. Made in Italy using pressure die casting, the cover is sold in a polished brass and a chrome plated finish. The item is supplied complete with stud fixings and nuts.

The vent cover is pressure die cast by Foresti & Suardi in Italy and is available in natural unlacquered brass or

chrome plated brass. Foresti & Suardi have been manufacturing pressure die cast brass marine hardware since 1961. Fittings such as this are amongst the core products manufactured since those early days. The tooling may have been updated and technology has moved on a great deal, but these are the heritage pieces that established the reputation of Foresti & Suardi, as well as Timage, in the global yacht accessories market.

Description

Heritage Collection

Our Heritage Collection features fittings that have been in our catalogue of hardware since the beginning of our brand back in 1978. The parts are typically pressure die cast brass and can be supplied in a polished, unlacquered finish or with a chrome plating. These parts are iconic pieces of 'deck jewellery', made famous by the 1960's and 70's timber craft and commonly used on modern interpretations of such boats.
