Short Description

This *Fold & Slide* table top is an innovative interpretation of the classic folding teak table. The beauty of this particular design is that the table remains incredibly solid when in the fully open position without the need for any additional table supports.

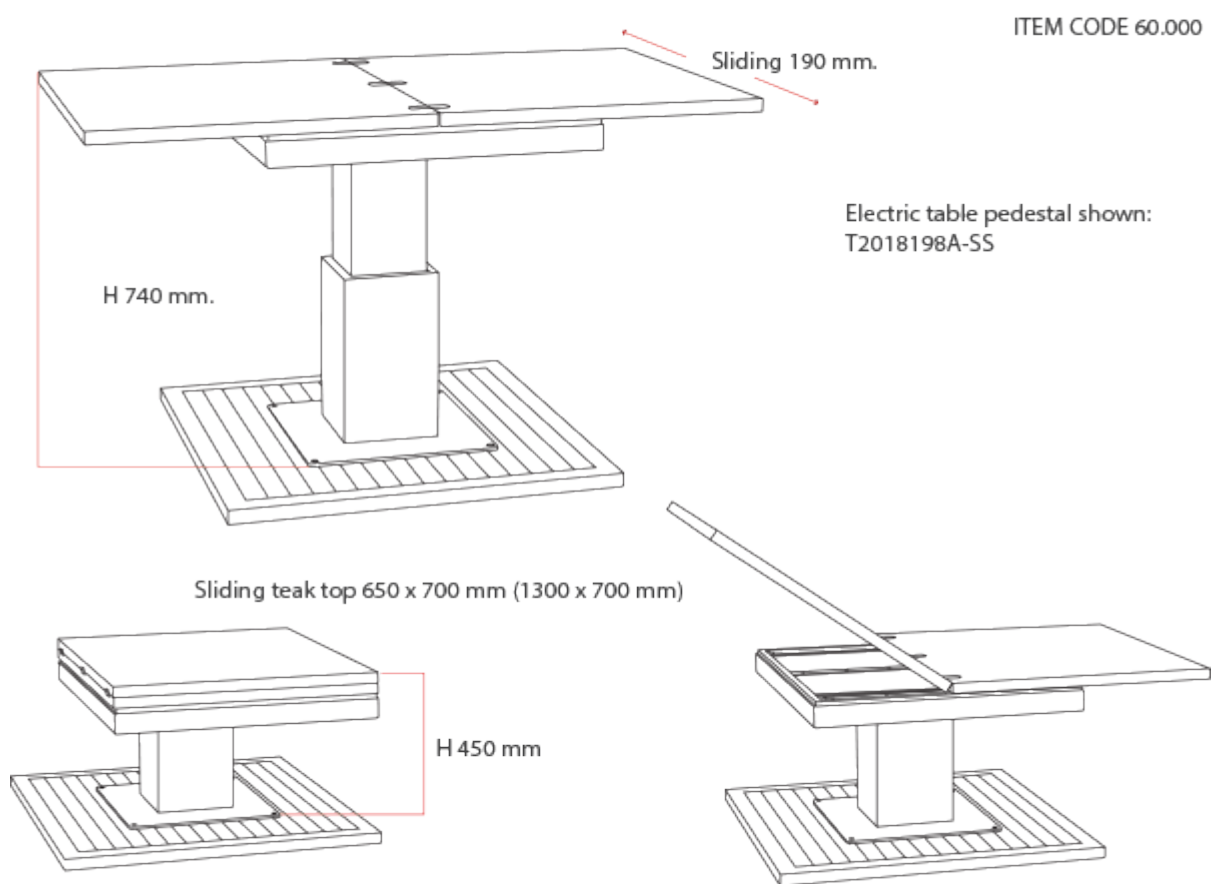

The product facilitates an ergonomic multifunctional space by offering the user the ability to change between a small coffee table and a generous dining table for 4 people.

The *Fold & Slide* table top can be used with fixed table supports as well as manual or electric height adjustable supports (not included).

- Straight grain teak table top
- Slide and fold action to quickly change from small to large table
- Lateral slide function of complete table top - 190mm
- Compatible with our fixed, manual and electric table supports by Atep Italia
- Custom fabrication - on request custom table sizes and finishes are available
