Short Description

A marine-grade waterproof spotlight with a stainless steel bezel. The Sagittarius courtesy light is a very slim design which enables it to be used in a wide variety of locations. This particular model is surface mounted and only requires a hole for the power cable. The fitting illuminates with an effective halo effect thanks to the transparent luminaire body design. The eyelid feature incorporated into the bezel ensures that the light is thrown down to the floor and removes glare.

- LED spotlight with a white output of either 3200°K or 4000°K
- 10-30Vdc multivoltage input
- Surface mounted design
- Screw fitting (screws not included)
- 316 grade stainless steel bezel with eyelid design

Additional Information

Weight (kg)	0.100000
