## Short Description

---

Completely submersible bilge pump. Compact design with ABS material housing, corrosion resistant.

The UP500 submersible pump is a reliable and high performing product especially suited to small boat application. The pump is ideal for use as a bilge pump and can be placed directly where water collects on board. Available in a 12Vdc or 24Vdc version, the pump is operated remotely with a switch (not supplied) or alternatively can be used in conjunction with our [AS2](#) automatic float switch which would activate the pump automatically when a certain level of water is met.
