

# UP3700 24V Submersible Pump 230 Litres/Minute

**£210.23**

Excl. Tax: £175.19

## Product Images

# Short Description

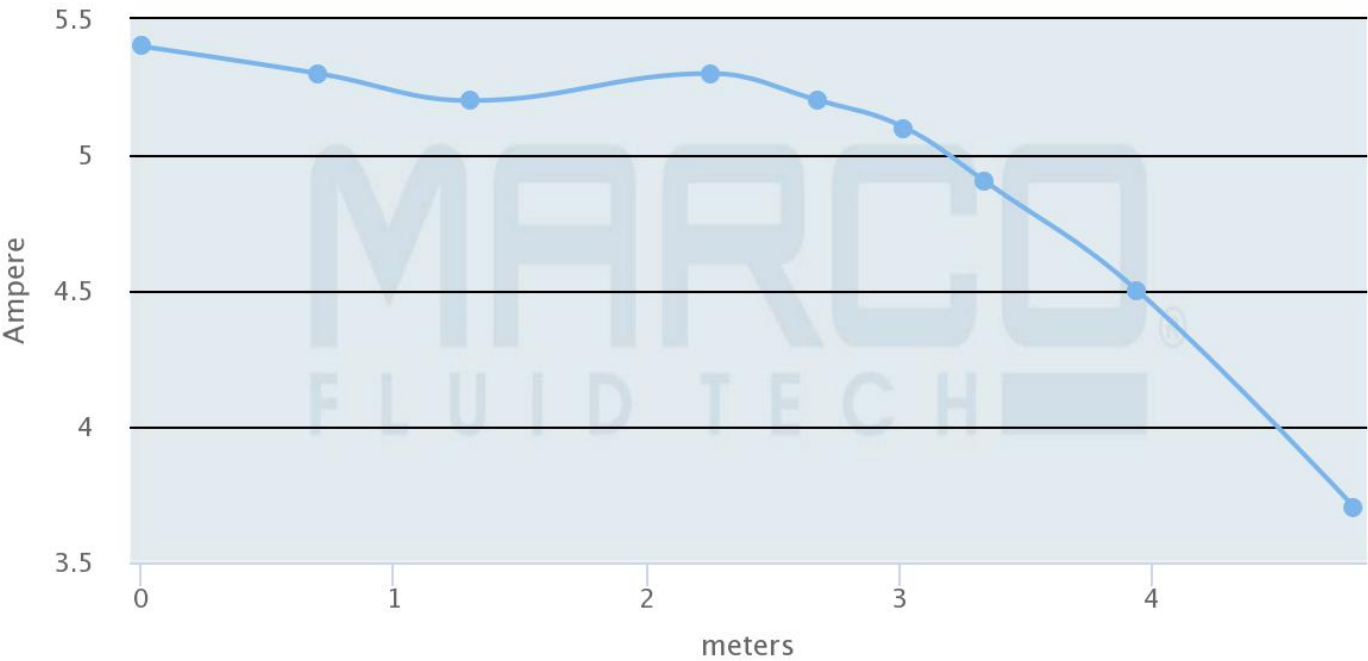

Completely submersible bilge pump. Compact design with ABS material housing, corrosion resistant.

The UP3700 submersible pump is a reliable and high performing product especially suited to large boat application. The pump is ideal for use as a bilge pump and can be placed directly where water collects on board. Available in a 24Vdc version only, the pump is operated remotely with a switch (not supplied) or alternatively can be used in conjunction with our [AS2](#) automatic float switch which would activate the pump automatically when a certain level of water is met.
