

Aluminium Extrusion For Strip LED - Shallow

From

£8.28

Excl. Tax: £6.90

Product Images

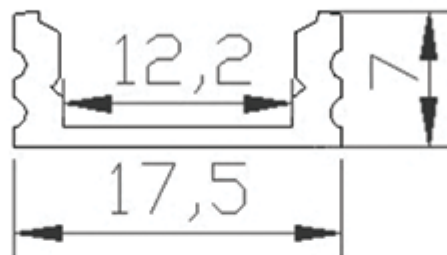

Short Description

Anodised aluminium extrusion for use with 10mm wide strip LED. This extrusion features a push-in frosted lens and is supplied complete with end caps and mounting clips (x2).

At only 7mm tall, this LED diffuser profile is ideal for use where a very low profile is required. Paired together with our COB LED tape, this product can offer a dot-free and compact solution.
