Short Description

Shower kits complete with self-priming pump with electronic control. Equipped with helical PTFE gears, nickel-plated brass body and connections, integrated check valve. Complete with 4m white hose with screw connections and hand washer equipped with built-in white container. The kit is especially suitable for yachts, rubber dinghies and sailing boats.

This pump features Marco's *Intelligent Brain* ECU system. The pump is able to detect the constant pressure in the plumbing system and respond accordingly when the pressure drops caused by an outlet being used. The

means that the pump can respond to demand and only ever works at the appropriate speed for any given usage. Advantages of this system include:

- Quieter running - pump rarely needs to run at full speed
- Longer lasting - a more mechanically sympathetic arrangement
- Less consumption
- No need for accumulator/expansion tank*
- Intelligent programming and inclusion with digital switching systems
- Fault finding - ECU logs error codes and allows for faster diagnostics

Now featuring the Marco 'Integrated Flange' which seals the motor for extended life of the brushes and lowering of electrical consumption.

* Please consult our technical department if intending to install this pump without an accumular tank. There are some scenarios in which an accumulator tank will still be required.

Additional Information

Input Voltage	12 / 24Vdc
Flow Rate	10 l/min
Pressure	2 bar
Liquid Type	Fresh water
Power Consumption	3 Amps
Fuse	7.5 Amps
Hose Connection	12mm
Weight (kg)	2.300000
Manufacturer	Marco
