- Brushed chrome effect plastic inserts
- Universal fit - 3/4" tapered keyway
- 350mm Diameter

Description

The 'Lessinia' wheel benefits from a polyurethane construction with 316-grade stainless steel spokes. This wheel is designed to withstand the harsh marine environment and features brushed chrome effect plastic inserts on the inner of the grip.

The Gussi range of wheels come as standard with a 3/4" tapered key way fitting which is a very common wheel specification and should fit the majority of steering shafts. On request we are able to supply with a splined shaft (longer lead times may apply). We are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes.

316-grade Stainless Steel Spokes

Polyurethane Construction

Brushed Chrome Effect Inserts
