- Polished stainless steel steering wheel
- Available upholstered with black leather
- Universal fit - 3/4" tapered keyway
- 350mm Diameter

Description

The 407 Gussi steering wheel is a beautiful addition to any helm. Cast from 316 grade stainless steel, the wheel is not only gorgeous to look at but is designed to withstand the harsh marine environment. As standard, this model is available in black leather. It is our recommendation that leather wheels are fitted internally only.

The Gussi range of wheels come as standard with a 3/4" tapered key way fitting which is a very common wheel specification and should fit the majority of steering shafts. On request we are able to supply with a splined shaft (longer lead times may apply). We are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes.
