Short Description

Spring loaded window stop available in brass and chrome

This spring loaded window stop is expertly crafted from pressure die-cast brass, offering both durability and reliability. Designed to be used with glass and Perspex windows ranging from 5-12mm in thickness, it provides an effective solution for safely securing windows in place.

Available in a choice of polished brass or chrome plated finishes, this window stop adds a touch of quality and style to any space. Made in Italy by Foresti & Suardi, a brand renowned for its precision and craftsmanship, it ensures long-lasting performance.

This product is being discontinued and is offered at a reduced price while stocks last.
