

P397 Meduza

Product Images

Short Description

The P397 Meduza Pilot Seat (was P397 Tecnodom) is ideal for a performance boat and boasts a wraparound backrest, mounted on a powder coated cushioned piston, ensuring optimal lumbar support even during high-speed navigation. Its adjustable inclination facilitates driving whilst standing, managed quickly thanks to electric movement.

Upholstered in vinyl fabric, the seat and backrest offer durability and comfort, with options for personalized touches such as contrasting stitching and embroidered logos. Additionally, a handle on the seat's back provides a secure attachment point for passengers in the next row.
