## Description

---

Fully automatic external passerelle with hydraulic movement, this model of gangway caters for typical requirements on board a very wide range of craft. The 'Young 759' is made from polished or powder coated stainless steel and matches perfectly with the design of modern craft. The walkway is available either in a classic iroko or teak grating as well as one of our newest technologies, including the polyester Rope Deck. All the gangways are supplied with an infrared remote control.
