

Round Porthole - Anodised Aluminium

£293.46

Excl. Tax: £244.55

Product Images

Short Description

Tinted perspex porthole.

- CE marked, RINA approved, conforms to ISO 12216.
- Supplied with 7mm PMMA Perspex, with a tinted finish.

A removable white plastic mosquito net is available separately (article number 910A00Z).

Description

A special adjustable friction system allows for an almost infinite variation of open positions and locking is via a pair of rotating handles. A simple design allows the portholes to be fitted to hulls of varying thicknesses from 20mm to 45mm with the added advantage of having no screws or rivets visible on the exterior frame. A marine grade neoprene seal guarantees water tightness in all conditions and the 7mm thick PMMA Perspex is supplied in a standard smoke grey colour. Cast from an aluminium alloy.
