Short Description

A solid brass drawer handle. Available in either a polished brass or chromed brass finish.

This drawer (or cupboard) handle is made from solid brass. Available in either a chrome plated or natural brass finish, the fitting is a traditional design. The natural brass finish is not lacquered and will therefore patina and change over time and with use. The handle is secured to the panel with 4x 2.9mm (No.4) screws. These fixings are not included with the handle but stainless steel fixings can be purchased separately; please

visit the related products section.

Foresti & Suardi have been manufacturing pressure die cast brass marine hardware since 1961. Fittings such as this handle are amongst the core products manufactured since those early days. The tooling may have been updated and technology has moved on a great deal, but these are the heritage pieces that established the reputation of Foresti & Suardi, as well as Timage, in the global yacht accessories market.
