Short Description

A recessed 316 grade stainless steel shower with incorporated LED lighting. This drench shower head is a market leading LED illuminated unit. Constructed entirely from marine-grade stainless steel and featuring the latest dot-free LED lighting modules, the shower is a high end product that suits a varied range of projects, from a private residential solution through to spa or yacht application. The shower is also suitable for exterior use.

This shower model is available in two different sizes and with a choice of either white or RGB colour change LED illumination. The shower is sold complete with an IP67 power supply for mains voltage application.
