Short Description

This compact door lock set is sold as a complete kit including handles, lock, handle roses and privacy pin (if specified). The simple privacy pin mechanism is neatly incorporated into the handle roses and has an easy to use push/pull action. The latch is supplied complete with a matching striker plate. The latch also has a universal door handing design and can simply be inverted for left or right handed doors.

This particular lock set is suited to a wide variety of uses as it is available in a brass or chrome finish, can be

supplied with two different handle sizes and also has the option of being specified either with or without the privacy function.

When specifying the door lock set, please ensure that the correct door thickness is also selected as this has an impact on the final product.
