Short Description

The RM0652 Prime 6.5" is a 2-way component system with a coaxially integrated tweeter featuring marine grade weather proofing technologies. Supplied in all black with matching grille.

Description

The Rockford Fosgate RM marine grade standard takes into account the devastating effects of the outdoor environment and takes extreme measures to ensure optimum performance.

The Marine RM full-range speakers are perfect for anyone looking to add some FANATIC sound to their vessel, and will always sound great when listening to your music at the dock or while tearing up the waves at full throttle.

- True Marine Grade compliance
- 100% UV stable ASA injection molded plastic parts
- Injection molded mineral filled polypropylene cone body with UV inhibitors
- UV and Salt-Fog Resistant Santoprene Surround
- Grill Integrated 0.5" LCP Dome Tweeter
- Ultra-flexible fully insulated silicone lead wire
- Corrosion resistant quick disconnect speaker terminals
- Moisture, tear and fatigue resistant Aramid fiber spider
- Available in black or white
- 2-Year Warranty
