Short Description

The PM282HW-B is a Punch 8" 2-way wakeboard tower speaker enclosure featuring a high output horn tweeter and marine grade weather proofing technologies. Supplied in all black or white with a stainless steel sport grille.

Description

Rockford Fosgate's PM marine grade standard takes into account the devastating effects of the outdoor environment and takes extreme measures to ensure optimum performance.

The PM282HW-B is a black 8" true marine grade speaker loaded into a sealed tight enclosure with a wake board tower clamp. The speaker features a 1" horn tweeter and 8" woofer in a high density poly-ethylene enclosure protected by a stainless steel grille. Both speaker and enclosure are treated with UV inhibitors and conform to industry Salt-Fog standards.

- True Marine Grade compliance
- High density poly-ethylene enclosure with UV inhibitors
- Quick release design for security and cleaning
- Includes safety lanyard
- Malibu® direct mount compatible
- Comes loaded with [PM282H](#) horn marine speakers
- Hi power Neodymium midrange motor structure
- Optional C-clamp available fits bar sizes 1-1/2" to 2-3/4"
