Short Description

The *Pyxis Small QQ* courtesy light is a subtle LED luminaire for interior or exterior application. The fitting has a softened square form making it ideal for a more contemporary setting.

As with the other fittings in the *Pyxis* range, the *Small QQ* is available in two power outputs, 0.5 Watt and 1.5 Watt. The 0.5 Watt SMD module has a very soft output and is intended for use as a marker light to bring attention to steps, changes in floor level or to provide minimal illumination in an area where night vision mustn't be overly affected. The Power LED 1.5 Watt fitting is a much brighter unit and can offer greater illumination. Both fittings are dimmable.

For simple installation and maintenance, the *Pyxis* range is available with a small brass installation cup which can be bonded in place first, or, in the case of a marine installation into GRP, can be set into the fiberglass during initial manufacture. With the use of the installation cup, the luminaire can be pushed-in and removed simply and quickly. This type of installation also guarantees water tightness around the fitting as it has been designed to accurately compress the luminaire's o'rings, preventing water from passing.

- Opaline polymer courtesy light with a chrome plated brass bezel
- Available in 0.5W SMD LED and 1.5W Power LED versions
- For interior and exterior use
- Available in a number of LED colours

Additional Information

Weight (kg)	0.020000
Manufacturer	Foresti & Suardi
Installation	Recessed
Input Voltage	10-30Vdc
IP Rating	IP65
Dimmer	Yes
Bezel Size (mm)	25.00 x 25.00
Cut-out Size (mm)	Ø14.50
Depth (mm)	20.00
Finish	Chrome

Light Element Type:	Power LED
	SMD LED
LED Colour:	White 3200°K
	White 4000°K
	White 6000°K
	Red
	Blue
