

P400 Matrix

Product Images

Short Description

The P400 Matrix Pilot Seat is designed for extended navigation, offering a wide range of movements and adjustments to ensure a comfortable driving position. With side padding on both the backrest and seat, this seat provides an ergonomic solution for long journeys. The adjustable backrest rake, controlled by a button integrated into the armrest, adds to its versatility. Additionally, the manually adjustable headrest can be personalised with an embroidered logo.

Constructed with a matt black fibreglass backrest and seat shell, the P400 Matrix offers durability and style. With various customisation options available, including leather upholstery, carbon side inserts, and control buttons integrated into the armrests for the automatic version, your seat can be tailored to your specific requirements. Optional features such as an embroidered or press-fit logo on the headrest, USB charging

socket, LED lights, and manual floor sliding system further enhance its functionality and appeal.

We encourage any prospective client to contact us to discuss their requirements so that we may be able to guide them through the purchase of this product and help select the options required.
