Short Description

This 316-grade stainless steel bathing ladder offers an ergonomic swim ladder solution whilst still being foldable for easy storage onboard. The ladder features 5, 7 or 8 steps with solid teak cappings and a pair of deck sockets into which the ladder simply locates.

Manufactured to order by Besenconi in Italy, please allow 6-8 weeks for delivery.

- Manual, drop-in bathing ladder
- Stainless steel structure
- Teak steps
- Foldable structure for easy stowage on board

Description

The SM153 manual bathing ladder is an excellent temporary ladder solution. The ladder neatly folds when not in use, allowing for easy storage on board. When the ladder is required, it can be simply unfolded and dropped into permanently mounted deck sockets.

The ladder is sold as standard in a polished finish with teak steps.
