Product Images

Short Description

The Caneva is a beautiful addition to a helm. It features double spokes that are cast from 316-grade stainless steel and is upholstered, as standard, in black leather with hand stitched detail.

- Stainless steel spokes
- Leather upholstered grip

- Hand stitched detail
- 3/4" tapered keyway fit
- 350mm diameter

Description

The Caneva steering wheel is a beautiful addition to any helm. Cast from 316-grade stainless steel, the wheel is not only gorgeous to look at but is designed to withstand the harsh marine environment. As standard, this model is available in black leather, with a black centre and embroidered Gussi logo. It is our recommendation that leather wheels are fitted internally only.

The Gussi range of wheels come as standard with a 3/4" tapered key way fitting which is a very common wheel specification and should fit the majority of steering shafts. On request we are able to supply with a splined shaft (longer lead times may apply). We are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes.

Leather Centre Cap with Embroidered Logo

Stainless Steel Double Spoke Design

Leather Upholstery with Embroidery Detail
